

# SPRING INTO SUMMER

## Year 1 Topic Snapshot Summer Term

This term we will be learning about the following.

Please talk with your child about these areas to help develop their understanding.

### Seasons

There are 4 seasons in a year.

What are they?

Can you think what happens to plants and animals in each season?

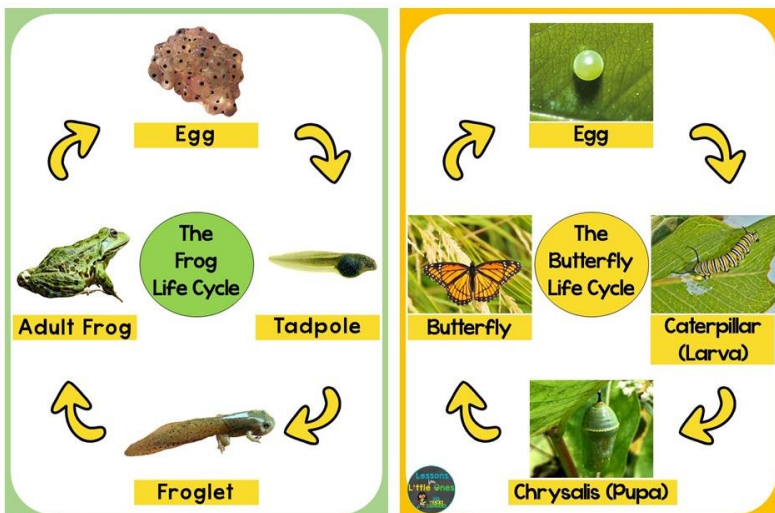

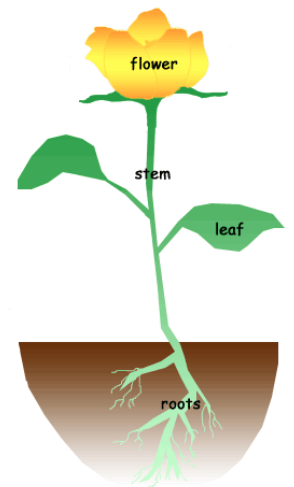

What order do the seasons happen in?

### Basic structure of plant

Talk about the different parts of a plant.

What do you think each part does?

Can you tell what plants need to grow?

### Metamorphosis

The process of transformation insects or amphibians go through when growing into an adult.

### Conservation

The act of protecting and looking after the Earth's natural resources.
