

Mark Making

Take your pen for a walk

Try not to take your pen off your paper. Keep going until your pen has had a walk all around your paper. After you could colour the shapes you have made.

Foil Marks

Use Sharpies or felt tips to draw on foil. The pens show up really well and it is fun to think of other things to write on rather than paper.

Salt Sounds

Pour salt onto a plate or tray and have fun making marks. Can you practise some of our sounds?

Secret Messages

We like to write and hide secret messages around nursery. Your child can continue this at home, writing secret messages around your house for people to find!

Reasons to Write Find reasons for your child to write - send post to a friend or family member that you cannot see at the moment, write shopping lists, birthday cards, play inspired writing such as superhero plans, treasure maps, menus, school registers...
