Learning from home - Reception

Please remember these activities are suggestions. I fully appreciate that many of you are working from home, so do what you can. Maybe have a day of writing, then a day of phonics. It would be ideal if you can read everyday and do a little bit of maths linked to their play daily as well. If there is anything you are not sure of, or would like help with, please get in touch. Lisa is directing emails to us from the admin address. admin@fleet.camden.sch.uk

Reading

I have made a little book linked to our *Animal Atlas* topic. Please read this with your child, encouraging them to build up their independence over the week. I have put some tips on the first slide.

Animal Atlas

Read this week's poem.

Look out for rhyming words.

Practise the key words *and*, *some* and *that*.

Eggs

Lots of animals come from eggs
Some with fins
And some with legs
Some that cheep
And some that fly
Some that creep
And some that dive
Some that slither
And some that run
Some with feathers
And some with none.
Some can be really small
And some, as big as a ball.

Writing

Write to me and tell me what your favourite animal is. Take a picture of it and send it to admin@fleet.camden.sch.uk This will help me choose which animals we learn about each week.

Watch the video I have made reading the story, "*You're Called What?!*"

Imagine you have discovered a new animal.

What name will you give it?

What does it look like?

Where did you find it?

Draw a picture of it and write a bit about it.

Send me a picture of this too.

Phonics

Watch the video I have made with the Phase 3 sounds we have learnt already. Practice these sounds using our favourite phonics game.

Sing the Jolly Phonics songs. Pay particular attention to j, v, w, x and z.

<https://www.youtube.com/watch?v=1Qpn2839Kro>

Continue to play some of the games on the phonics play website.

<https://new.phonicsplay.co.uk/resources>

Maths

Brush up on knowing one more and one less.

Ask your child, "What's one more than 5?" "What's one less than 9?" Start with numbers 1-10, 10-20 and then beyond if your child is up for more challenge.

Draw up a table similar to the one below. You could roll one dice to write in the middle, or more.

| One Less | My Number | One More |
|----------|-----------|----------|
| | | |
| | | |
| | | |
| | | |

You could try some of these ideas too.

Extra challenge some might be interested in.

Physical Development

Can you slither like a snake?

Pounce like a leopard?

Stomp like an elephant?

What animal actions can you think of?

Practise your underarm throw. Roll up socks to make a ball. Decide on a target.

Using your arm like an elephant's trunk, underarm throw your socks at your target.

Health and Self Care

Remember to try and eat lots of fruit and vegetables. These help to keep us healthy. This week you could try a vegetable you don't normally eat.

You might find you love it! I'd love to hear if you've given something a go!

Come on, give mushrooms a chance. ☺

Understanding the World

The World

Watch this beautiful video (if you can do it without a tear in your eye, you're doing well).

Chat about what they enjoyed in the video, the animals they saw and start to think about different habitats animals live in.

<https://www.youtube.com/watch?v=iYXBJmrsxZU>

Technology

Have a go at this CBBC game. You can explore lots of different habitats.

<https://www.bbc.co.uk/cbbc/games/beyond-bionic-extreme-encounters>

Expressive Arts and Design

Draw, paint or make your favourite animal. Remember to send me some photos.

Have fun everybody. This week I will phone on Monday and Thursday.
I look forward to chatting to you all.

Love Beth
