

## **Science/Geography: Seasons, Weather and Materials**

You are going to use your knowledge about the seasons and materials and learn a little more about weather so that you can **design your own outfit for one of the seasons of your choosing!**

We're using lots of knowledge and skills this week from different subjects, including Science, Geography, Computing, DT and Art! You always know far more than you think you do so I think this is going to be fun and help you to realise how much you have learned so far in Y1.

1. We are using **Discovery/Espresso** online today. First, go to this webpage:  
[https://central.espresso.co.uk/espresso/modules/route\\_creator/main.html?lang=en&mode=view](https://central.espresso.co.uk/espresso/modules/route_creator/main.html?lang=en&mode=view)

If you need them, your username and password are as follows:

**Username: student21013**

**Password: fleetp**

2. You will see this page:

**Watch** the video: 'Whatever the weather'

3. Now, you can navigate through the **green circles** at the top of the page.

When you reach **Circle 3**, **think about and answer the questions**.

[YOU DO NOT NEED TO COMPLETE THE PLANNING SHEET OR THE RESULTS SHEET SO YOU CAN SKIP CIRCLE 4 AND CIRCLE 5 AND JUMP STRAIGHT TO CIRCLE 6]

4. **Circle 6** will take you to this page:

Now, you can **plan and design your outfit**. Remember to **label** the materials you have chosen for your outfit and **explain why you have chosen them** (eg: waterproof jacket so that rain can't get through and make me wet!)
