

Y1 Home Learning (wc. 18.5.20)

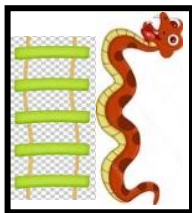

As per previous weeks, below is a list of activities for the children to tackle over this week. **I've changed things a little this week based on how the children have been doing with their learning and motivation, general feedback and a really useful course on Home Learning I took last week.** As usual, though, **I do not expect every single task to be completed.** As ever, **please do look at all of the Y1 page** as there are lots of extra ideas and activities in addition to each week's learning. Whilst it is important to keep learning key facts and skills and acquiring knowledge, this is also a **great opportunity for your child to explore their interests further and be creative.** **Please share a SAMPLE of their learning with me every week:** a piece of English or Maths and perhaps another piece of learning of which they are proud - you can **send them to me on a Friday.** And please know that **you are all doing a fantastic job** in what is a bizarre time and situation! You are my heroes for all the time, effort and dedication you are putting into keeping Y1 learning, happy and safe! And remember, **whatever you are managing to do each week is enough.** The highlight of my week are the emails, photos and videos you send me of the children - they brighten up my days immensely! Thank you!

Take care and keep smiling!

English

English is a little different this week. **Our focus is on writing to different people.** The words we use can really help other people and we can also use them to thank people who look after us and who we love to make them smile. **Words are super powerful!** Go the English Resource to discover more.f

Phonics

Our focus this week in Phonics is on the Sound Family -er/-ir/ur. As usual, there is an activity for each day and some Chilli Challenges to stretch your Brilliant Brains. I have also created another **phonics boardgame** for you: **Phonics Snakes and Ladders.** Finally, there is a **shared Phonics-Reading Resource** this week for some fun! Let me know what you think and enjoy,

Fabulous Phonics Funsters!

Reading

Reading is a little different again this week - there are some more new games! There is also a surprise Phonics-Reading Resource called **Word Warriors** - take a look! This week I want you to listen to some poetry by the jovial **Joseph Coelho**: 'If All The World Were Paper' This poem makes me think about Science and our learning on Everyday Materials. What would you do if all the world were paper? Happy reading and listening, my Creative Critics!

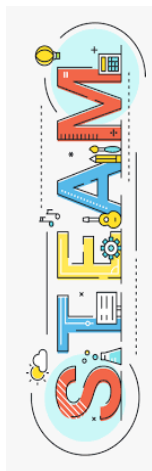

Maths

Our **focus in Maths this week is on adding and subtracting by making 10**. Remember our Maths Mantra: **If I know this, I also know that!** You have lots of mathematical knowledge already so take your time and use the knowledge and skills you already have to help you with this learning. Have fun, Marvellous Maths Detectives!

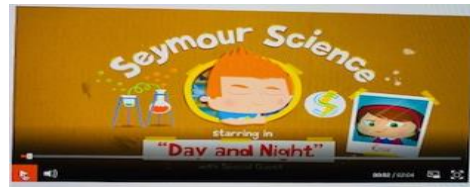

Science

Our **focus in Science this week is on wood as one of our everyday materials**. Firstly, have at think: What objects are made of wood? What do you have in your home that is made of wood? Did you find any toys made of wood for your last Science challenge? Now, go to Mrs Mulji's Science Resource and enjoy!

STEAM

In **STEAM this week, we are focussing on and Day and Night**. Firstly, think about what things are different between day and night. What changes happen as day becomes night? Now, watch and listen to Seymour and Rosie telling us about day and night here: <https://www.bbc.co.uk/bitesize/articles/zvfbgwx>

Now, go the **STEAM Resource** for our activities. You'll need to use your Science, Art and Maths knowledge and skills for these activities. Enjoy!

PSHE

Our **focus this week is on friendship**. I know you have been missing one another and I have heard of some children in Y1 sending their friends a drawing or a card, which is super kind and also a lovely surprise! Go the PSHE Resource to discover our activity for this week.
