Close your eyes and point to a number in the Number Circle below. For the first number, subtract 1, for the second number, subtract 2 and for the third number, subtract 3.

<b>Subtract 1.</b>		
<input type="text"/>	<b>− 1 =</b>	<input type="text"/>
<b>Subtract 2.</b>		
<input type="text"/>	<b>− 2 =</b>	<input type="text"/>
<b>Subtract 3.</b>		
<input type="text"/>	<b>− 3 =</b>	<input type="text"/>

Now, take the numbers in the circle that you have not yet used and choose to subtract 1, 2 or 3 for each number. Write the Number Sentences/Equations on a piece of paper. I have completed one for you as an example.

$$10 - 2 = 8$$
