LO: I can say what makes me special and unique but also how I am part of a larger society

Fill in the puzzle piece below with words and pictures that represent you. What makes you special? What things do you like to do? Who is your best friend? What is your favourite game? What are you really good at? (Maths, running, hugging, writing) What are your best qualities? (eg: I am really caring or I can make people laugh) This will show that we all have a part to play during this difficult time and that we are all important in our community and society. I'd like you to show these to me and each other on Zoom on Thursday so try and complete this by then.
