

Geography: Town and Country

We are going to expand our Geography knowledge and learn about the town and the countryside.

Watch this video/story about two friends, the town mouse and the country mouse:

https://www.youtube.com/watch?v=Kkw_uNmCUq4

The two friends have some things in common/the same but there are also lots of differences between them and where they live.

Now, think about the story and what is different about the two friends.

1. Draw a picture of the Town Mouse in the town and label your drawing. What is he wearing? What does he eat? What buildings and other things are around him in the town?
2. Draw a picture of the Country Mouse in the countryside and label your drawing. What is he wearing? What does he eat? What things are around him in the countryside?
