

Geography – making a map or plan

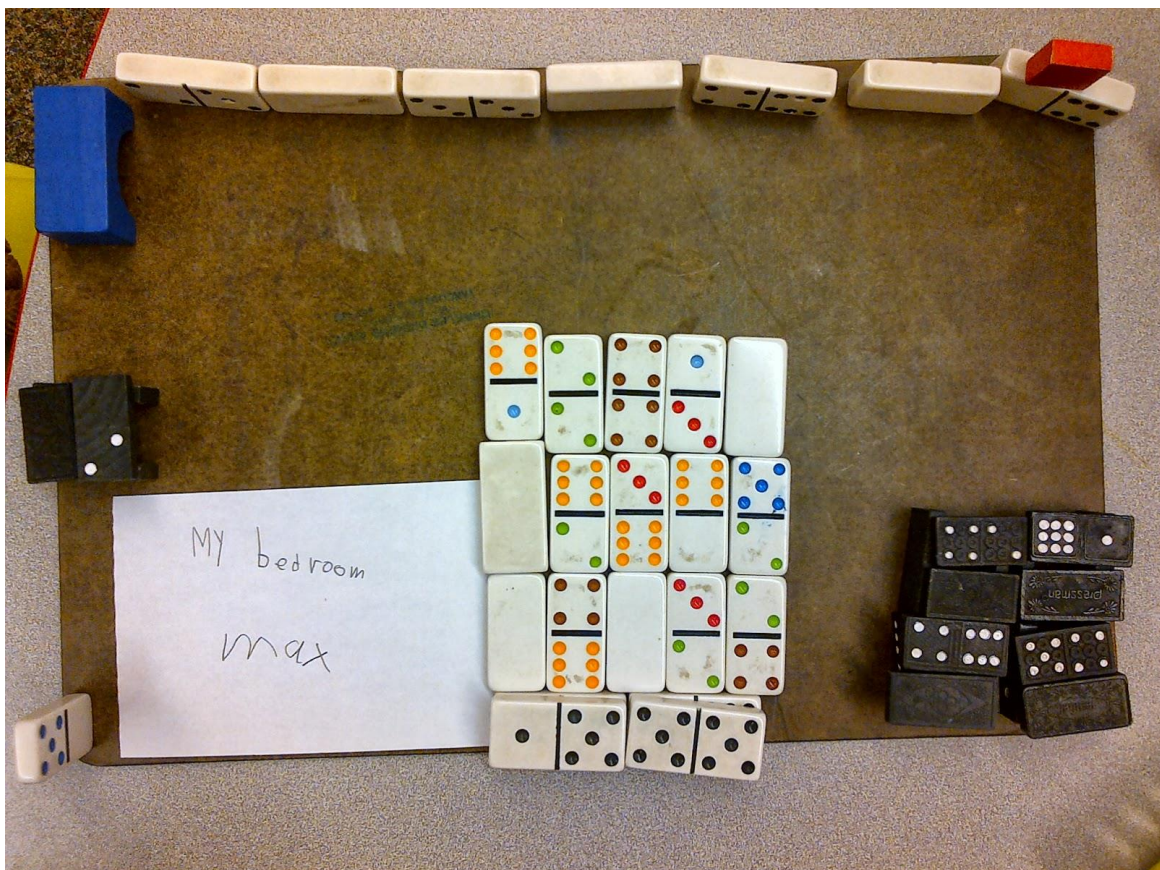

These are just some examples from Google to show you the kind of thing you could do for your room map!

Example of plan for a room. Think about what the furniture would look like from overhead (this is called a 'birds' eye view':

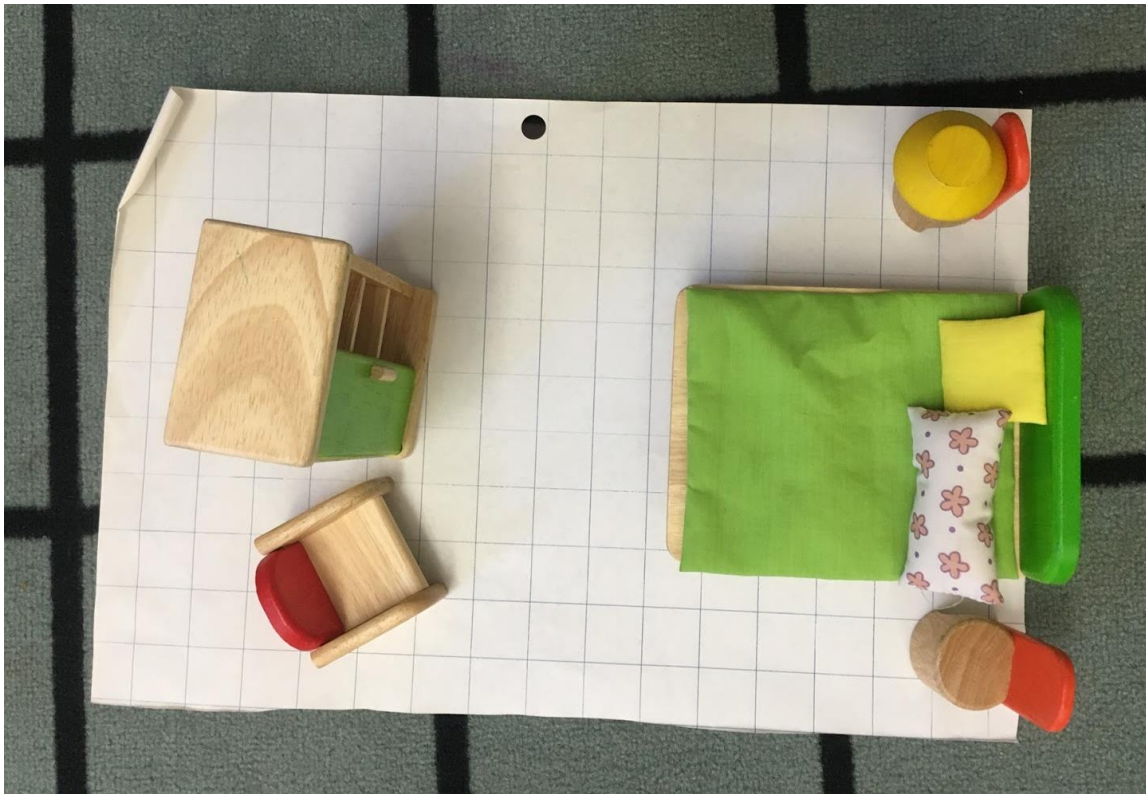

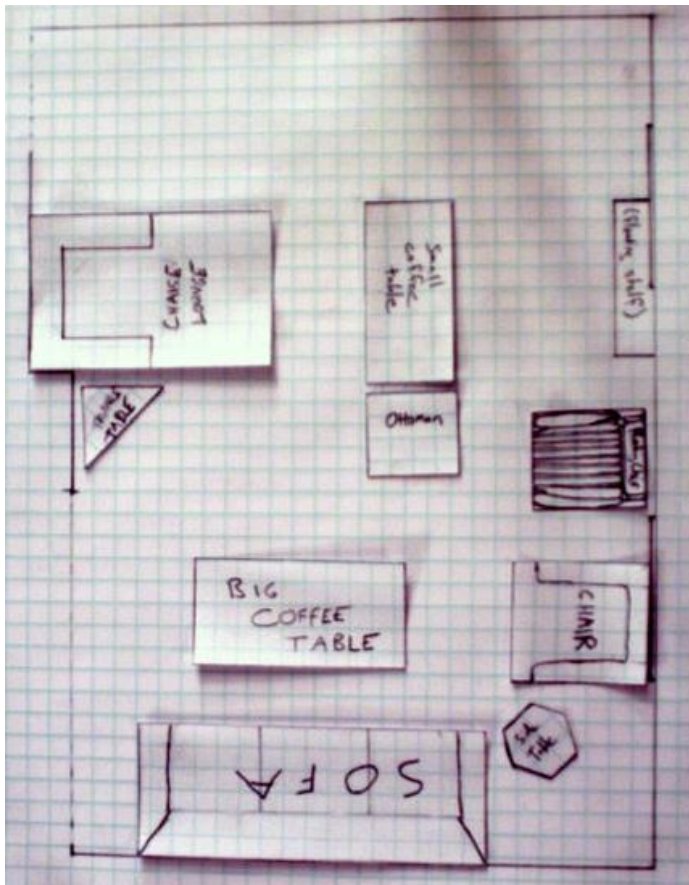

This person has made a representation of their room out of objects:

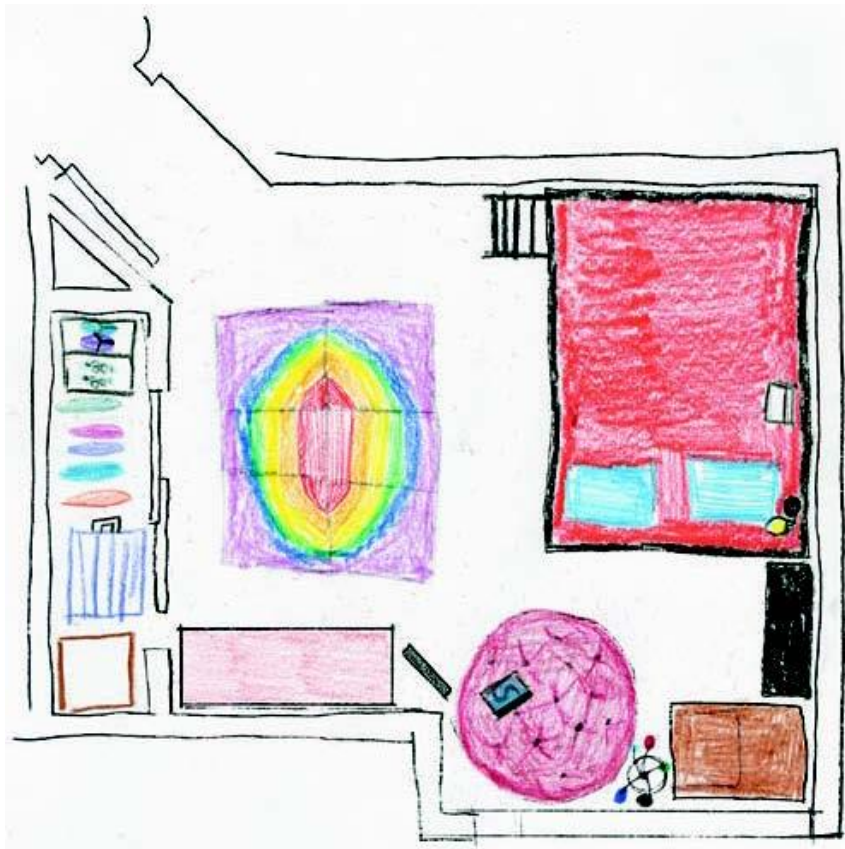

Or dolls' house furniture:

This one is made out of paper:

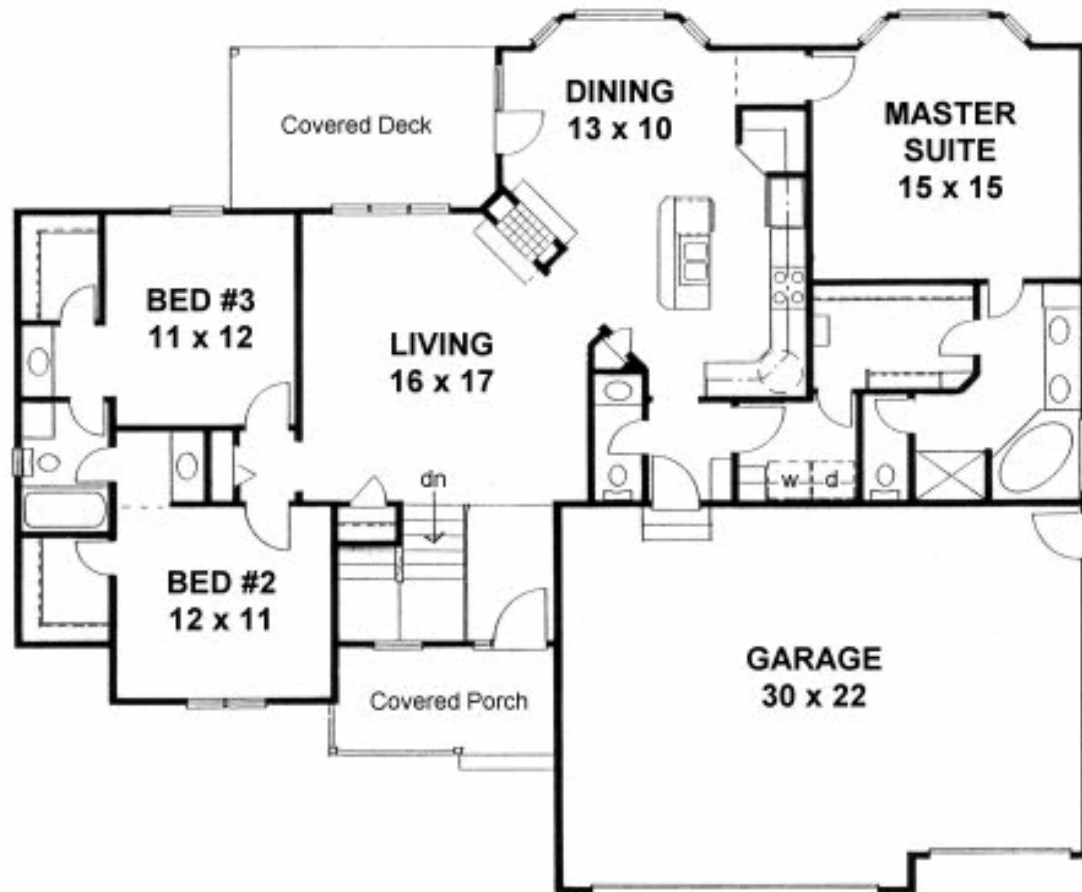

This design is colourful!

If you want to carry on, you could make a plan for a whole home!

Here are some examples of floor plans for a home. What would you include in your dream home?

Don't forget to label your plan with what each room is for!
