Headteacher: Don McGibbon

Learning from home – Year 4 – w.b. 23rd March 2020

English

Remember where we got up to reading the Iron Man? We'd just started chapter 4, where the Space-Bat-Angel-Dragon arrives. You can find a video of someone reading chapter 4 aloud here, listen and remind yourself:

<https://www.youtube.com/watch?v=NAiU8Hm-4lw>

Write a letter to the Space-Bat-Angel-Dragon persuading him not to destroy the Earth. What things are important on Earth that need saving? What would happen if he started destroying it? What should he do instead?

Write a prediction for the next part of the story. The Iron Man has had an idea. What do you predict he will do? Will he save the Earth? How? Write your prediction and then check back next week to see if you were right!

Don't forget to read your library books from school, or any other books you want!

Maths

We're starting fractions.

You have been assigned two activities placing fractions on a number line on Mathletics. Sign in to have a try.

Practice finding fractions of amounts using the 'bar model' method – see the PowerPoint to have a go!

Once you're good at finding fractions of amounts, try some word problems here:

<https://www.twinkl.co.uk/resource/t2-t-558-r7915-year-4-to-6-multi-step-fractions-of-amounts-maths-word-problems>

Art

Make an Iron Man – you can use anything you want! Maybe some recycling from around the house – egg boxes, cereal packets or other cardboard, empty kitchen rolls... and perhaps some tin foil to cover?!

Geography

Start learning some ordinance survey map symbols <https://www.twinkl.co.uk/resource/t2-g-041-map-symbols-display-posters-os>

In Geography, we've been talking about settlements (hamlets, villages, towns and cities). Can you create a map for designing your own settlement? Use the symbols you know to label it. Don't forget to create a key! Think about: what services would be important to have?

French

Learn the weather in <https://www.twinkl.co.uk/resource/t-t-6298-french-weather-powerpoint>

Can you make some flashcards? Draw a picture to represent each weather type and write the words in French underneath. Ask someone in your family to use them to test you in the words!

Here's fun song to help you! <https://www.youtube.com/watch?v=eBvJVOuBPXI>

RE:

Make a poster about Ramadan, an important event in the Islamic calendar. Find out all about it here:

<https://www.bbc.co.uk/bitesize/topics/zpdtbkb/articles/zjc2bdm>

Science:

We've started learning about circuits and electricity. Research conductors and insulators and then make an information booklet about them. You can find a useful video here:

<https://www.bbc.co.uk/bitesize/topics/z2882hv/articles/zxv482p>
