

## Year 4 home learning tasks week beginning 04.05.20

Below is a list of tasks and activities to work on over this week. Your child should be able to work on these tasks mostly independently, although it's always nice for them to discuss their ideas and share what they've achieved with someone. We do not expect every single task to be completed, rather it is a list of ideas to keep them busy and learning, in line with the National Curriculum. Whilst it is important to keep learning key facts, knowledge and skills this is also a great opportunity for your child to explore their interests further and be creative.

Please share a sample of their learning with us every week – a piece of English, Maths and perhaps another piece they are very proud of – by emailing it to [admin@fleet.camden.sch.uk](mailto:admin@fleet.camden.sch.uk) with the class teacher's name as the subject.

### **English – writing**

We are starting a new text – Jemmy Button. It's set in South America and has amazing illustrations! Have a look at the power point where we've put up some pictures of the start of the text (we will read it bit by bit together!) and we've set you two tasks to do.

### **English – reading**

There are some comprehension questions for you to do around this article:

<https://superscience.scholastic.com/issues/2019-20/090119/bricks-and-beats.html#860L>

#### **Bricks and Beats**

SEPTEMBER 2019 | My Amazing Idea Podcast

Michael Ford shows kids how to design cities inspired by their favorite songs

Don't forget you can also listen to David Walliams reading aloud from his books here:

<https://www.worldofdavidwalliams.com/elevenses/>

### **Maths**

This week we're going to look at halves and quarters, pounds and pence and measure.

The first lesson is in the home learning documents here on the Year 4 page.

You can access the second two lessons using the same website as last week:

<https://whiterosemaths.com/homelearning/year-4/>

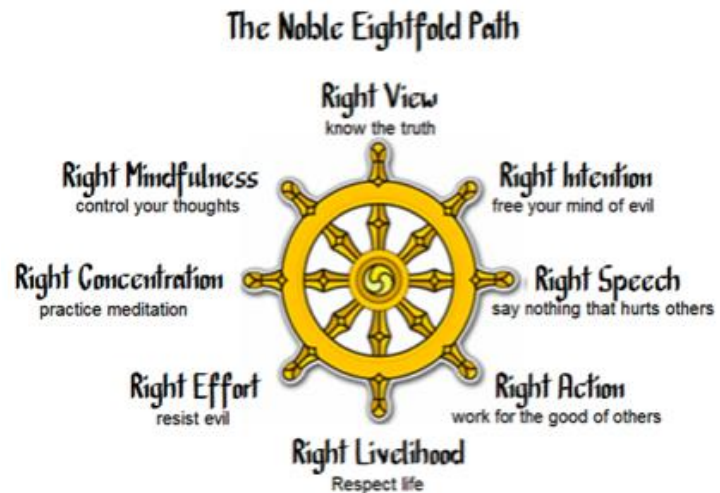

This week we would like you to look at 'Summer Term – Week 2', lessons 2 and 3. Again, you don't need to print it out, just write your answers on a piece of paper.

### **Art**

We thought you'd enjoy creating a piece of art work to go with your animal report which you wrote last week. Make a picture of your chosen Amazon rainforest animal using any medium you like – pencils, felt tips, paints, pastel, collage, colouring pencil... We can't wait to see them!

**RE**

Read the power point about Buddhism and the Eightfold path, which describes how Buddhists should try to live their lives. Create a picture or poster, similar to the one here, which explains what the eight ideas are and what they mean.

**Geography**

We are learning all about South America. Have a look at the power point which is an introduction to the continent. If you have a printer, please print the blank map and label it with the countries. You can use an atlas or the power point to help you! You could also add capital cities if you want. If you can't print the map, try a quiz instead. There is one here: <https://www.playgeography.com/games/countries-of-south-america/> or here: <https://lizardpoint.com/geography/samerica-quiz.php>.

**Music**

Our fabulous trumpet and trombone teacher, Rod, has put up some videos for Yr4 so you can continue with your learning. Here's the link:

<https://taktylos.wixsite.com/mysite-1/find-your-school>

Also, the BBC has put together a weekly Music activity. This week: Tell a story with your very own body percussion music:

<https://www.bbc.co.uk/teach/ten-pieces/watch-this-do-this-weekly-activities/zjy3382>

**Science**

This week we're learning about how living things are classified. Have a look through the Science support document and then have a go at making a 'branching database'.
