

## Year 4 weekly home learning 20/03/20 (due in 27.03.20)

### Maths

We've been looking at division. Have a go practising division facts on <https://www.topmarks.co.uk/maths-games/hit-the-button>. Choose division facts and then either choose a times table you know you need to practise (maybe 7s, 9s or 12s) or mixed facts if you're feeling confident on all times tables. Keep a record of your score and see if you can beat it next time you play!

### Reading

We've talked about summarising. Read a chapter of your book and think about how you could summarise it.

Rule: it has to be 80 words maximum!

Think about what the key information was and how you're going to say it in a short way!

Don't forget to read lots and record in your reading diary what you've read.

### Spelling

Start practising your next spelling list! The lists are up on our class page on the school website, along with lots of ideas of how to practise them.
