E-mail: admin@fleet.camden.sch.uk

Headteacher: Don McGibbon

Learning from home – Year 5 – W.B. 4th May

Below is a list of tasks and activities to work on over this week. Your child should be able to work on these tasks mostly independently, although it's always nice for them to discuss their ideas and share what they've achieved with someone. We do not expect every single task to be completed, rather it is a list of ideas to keep them busy and learning, in line with the National Curriculum. Whilst it is important to keep learning key facts, knowledge and skills this is also a great opportunity for your child to explore their interests further and be creative.

Please share a sample of their learning with us every week – a piece of English, Maths and perhaps another piece they are very proud of – by emailing it to admin@fleet.camden.sch.uk with the class teacher's name as the subject.

Word of the Week: **Celestial**

Celestial means to do with the sky or to the universe beyond Earth's atmosphere. It can also be used to describe something to do with heaven. In our topic, you will learn about '*celestial bodies*' – this means natural objects that are in the sky. The planets are example of large *celestial* bodies.

English

***Get free access to digital books, audiobooks, newspapers, magazines and graphic novels using this link: <https://www.camden.gov.uk/digital-library> ***

Reading: Something a bit different this week! I'd like you to **write a riddle about one of your favourite books or a favourite character from a book**. Think really carefully about what the key features of the book or character are and how you will include them creatively. Please email me your riddles so I can share them with the rest of the class and we can try to solve them! Can you solve mine? (Yours doesn't have to rhyme).

This old lady isn't a normal gran
So boring, Ben isn't her biggest fan
But there's more to her than smelly soup
They're going to be rich - whoop whoop!
There's going to be a few problems though,
The fences, guards, alarms - oh no!

Writing: Look at the **Year 5 English resource 4th May** on the Year 5 home learning page. Your task is to **write a poem inspired by Van Gogh's painting, Starry Night**.

Grammar: Watch the videos and do the activities at

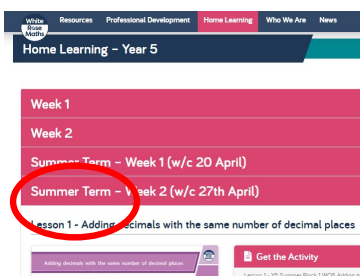

<https://www.bbc.co.uk/bitesize/articles/zdstbtk> to practice using apostrophes for contractions (e.g. haven't, don't) and possession (e.g. Bob's hat, the cats' tails).

Maths: This week's focus – adding and subtracting decimals

Go to 'Summer Term Week 2 (w/c 27th April)' on White Rose Maths website

<https://whiterosemaths.com/homelearning/year-5/>

There are 4 lessons about adding and subtracting decimals and then a Friday maths challenge; I'd like you to do all of them over the week. Each lesson has a short video to watch and then an activity. **Watch the video and try the activity** – you don't need to print out the sheets, you can just write your answers on some paper. The answers are also on the website so you can check your learning. **When adding and subtracting decimals, remember the Golden Rule – LINE UP THE DECIMAL POINTS!**

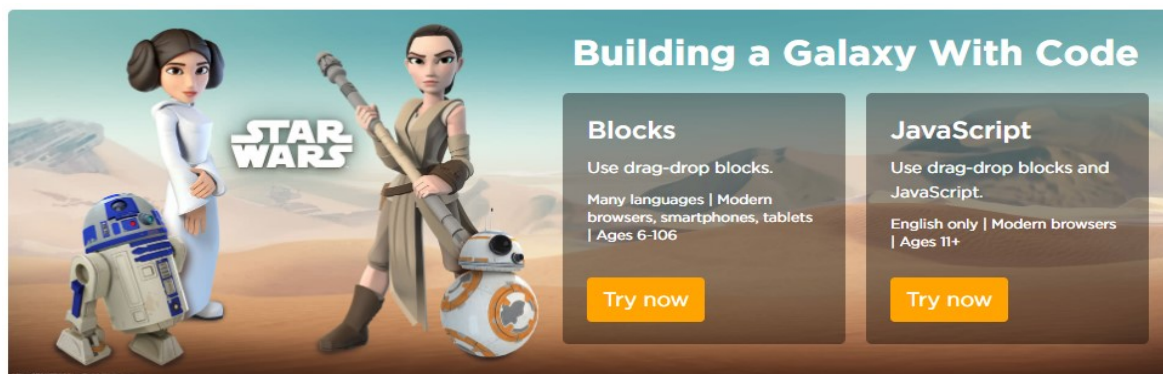

There is a **challenge** on the Year 5 home learning page too 😊

Science: This week, we're learning about the sun. Mrs Mulji has set a task for you to do – look on **Year 5 Science 4th May**. One of the activities involves printing out a template – ***if you haven't got a printer, don't worry!*** Do the one of the other activities!

Computing: Practice your **coding skills** by completing this Star Wars themed coding challenge. <https://code.org/starwars> There is the option to download an offline version if you do not have good access to the internet. Most of you will be adequately challenged doing the 'Blocks' version, however if you find this easy then you can try the 'JavaScript' version. There are video tutorials to help you. Good luck!

Don't have Internet? Download the offline version.

History: Look through the presentation on the Year 5 Home Learning page called **Y5 History Resource 4th May**. Learn about animals being sent in to space. Decide if you think it is acceptable to send animals in to space in order to learn more about Space travel. **Write a short piece supporting your view** (see the last page of presentation).

Art: Look through the presentation on the Year 5 Home Learning page called **Year 5 Art Resource 4th May**. It is all about an artistic style called 'Post-Impressionism'. **There is a choice of 3 activities at the end** – or feel free to do 2 or all 3 of them!

PSHE:

It is a difficult time at the moment with the virus and the lockdown. You might be finding that staying inside a lot, trying to do your learning, being worried about and missing friends and family is making you very emotional. You might feel angry a lot or suddenly tearful. It's normal to feel these emotions, but there are things you can do to help yourself feel better. There are some ideas on this poster. Think about which might be helpful to you and make a note of them. You might have your own ideas to add too. Keep the note somewhere safe for you to look at when you need to.

Music: Use the **brass tutorial videos** on the Year 5 Home Learning page to keep practicing you trumpet or trombone – **a new one has been posted!** If you don't have your instrument, let me know and I can arrange for you to collect it.

P.E.: Watch some of the '**street dance**' videos here

<https://www.bbc.co.uk/teach/class-clips-video/street-dance-masterclass/zh2vpg8>

Can you recreate one of the dances? Or perhaps you can take some of the moves and choreograph your own routine? Maybe ask your family members to learn it with you!

Also, keep doing Joe Wicks P.E. on Youtube every day!
