

Week commencing 11th May 2020

Time Zones

The Earth is split into different time zones. Meaning that when you are eating your breakfast, someone else in the world is getting ready for bed. It also means if you are ringing a relative in a different country you need to think about what time you are going to call them, to make sure you don't call them in the middle of the night.

Have a look at this website to find out more.
