

## Task

## Time Zones

Visit this website to complete your task.

<https://www.timeanddate.com/time/map/#!cities=136>

- 1) Type the name of the city you wish to find out about into the 'Search city' box.
- 2) The location will be marked by a pin, hover the mouse over the area and it will highlight the time zone.
- 3) We live in the UTC zone, so all the other countries are either ahead + of us or – behind us. Look along the bottom to see how many hours.
- 4) If you need to click on the countries pin at the bottom and it will take you through to a clock that shows you what time and date it is right now!
- 5) You can also hover your mouse of the little red dots and it will tell you the location.

Good Luck!

You now need to use this website to complete these fact files. If you want to think of a different way of presenting this information, then go for it 😊

### Challenge

Try and answer these questions.

- 1) Which is the biggest country with only one time zone.
- 2) Why do some countries have more than one time zone? E.g. USA
- 3) Name three countries that have more than one time zone
- 4) How many time zones does Russia have?
- 5) If it is 3pm in Timbuktu, what time is it Riyadh?
