

L.O.: I can convert between mixed numbers and improper fractions

Shade in the number of parts shown by the fraction

Fill in the empty box to show the fraction as a mixed number and improper fraction.

	Mixed number	Improper fraction
		$\frac{13}{4}$
	$1\frac{5}{6}$	
		$\frac{15}{9}$
	$2\frac{1}{2}$	
		$\frac{8}{3}$
	$4\frac{2}{5}$	
		$\frac{22}{8}$

	Mixed Number	Improper Fraction
		
		
		
		
		
		
		
		

Write the answers as an improper fraction and a mixed number. Colour in the blank shapes to help you.

$$\frac{5}{6} + \frac{4}{6} =$$

$$\frac{7}{9} + \frac{6}{9} =$$

$$\frac{3}{4} + \frac{6}{4} =$$
