

LO: I can explore the links between the brain and art.

What have we learnt about our brains so far?

LO: I can explore the links between the brain and art.

What do you see?

We know that people may see different things.

LO: I can explore the links between the brain and art.

An artist called Mark Wallinger created a series of art works, using blot technique.

Where/when are blot paintings used?

LO: I can explore the links between the brain and art.

What do you see here?

If you have paint, you could create your own ink blots and see what you family notice in them.

If you don't have paint, google ink blots images and see what you spot.
