

Year 6 –Summer Term 2 week 7 Home learning

Hello Year 6,

We made it to the last week of Year 6! You did it! Well done for all your hard work and resilience this year but particularly over the past few months. To finish off I have put together some fun ideas for you to try at home.

Please watch our leavers video with your family at home when it goes up. You have all contributed to it and should be very proud!

English: Go through the slides and complete as many of the writing activities as you like.

Maths: Complete 'The mystery of the burgled bangers'. Then complete the slides on arithmagons.

If you would like to do more, please go to Mathletics and revise any calculation problems on there.

Art: draw/paint/sketch your favourite memory of your time at Fleet. This might be in abstract form. This might be a nice way to draw your time at Fleet to an end. Even though it hasn't ended the way we would have liked, we must hold on to the great times and experiences that we had during your time here.

PSHE: Please complete your transition to secondary document. You may need to do some research on your news school website. Some pages you may have to wait to receive some information from your schools- don't worry! You can do some of it alone or share it with the adults who are with you.

**Well done everyone, we did it! Now you can relax and enjoy your summer holidays.
Thank you for all your hard work and resilience. Come and visit us soon! 😊**
