

Year 6 –Summer Term 2 week 3 Home learning

Hi Year 6,

It was lovely to see some of your faces over the past week and for those of you staying at home, I hope you enjoyed your chat with Anna! Please make sure to be following the learning over the next few weeks, particularly anything to do with leavers. We are trying to put together some special things for you guys to be able to celebrate the end of Primary but we need all of us to help!

English: Go through the English Pdf on ghost stories, and complete the given activities. Please take care to stop at the correct place if you will be coming in to school! If you are not coming in, work through all the slides.

Guided reading: Look at the PDF for a text called 'The Cave'. Answer the questions that are on a different document.

Story Time: Mr McGibbon has put up the remaining chapters to listen to of 'Thief' by Malorie Blackman on the website – year 6 page. Listen to them to find out how the story ends.

Maths: Please go through the powerpoint on adding and subtracting fractions the complete your chosen spice level or levels for adding and subtracting fractions.

Then go to Mathletics and revise adding and subtracting fractions activities on there.

Finally- ONLY IF YOU ARE NOT COMING TO SCHOOL AT ALL, please complete and self mark the fractions assessment paper.

Science: PLEASE ONLY DO THIS IF YOU ARE NOT COMING IN TO SCHOOL AT ALL. Follow the slides on the pdf for microorganisms and watch this video. Then complete the tasks on the slides.

<https://www.youtube.com/watch?v=aPmPep2r6uo>

French: Go to the website below- click on lesson and click on 'World-weather'. There you can have a tutorial or go straight to games to revise weather vocabulary.

<https://www.french-games.net/>

Then write about your favourite season – what kind of weather do you like best? What do you like to do when it is sunny or when it snows?

Art: Look through the pdf on coastal art and watch the video clips demonstrating how to build texture and shape through sketching and charcoal. Have a go at creating your own detailed seashell sketch. (If you have done this in school, don't worry, you can have another go if you like! 😊)

Music: Please keep learning the songs 'Geronimo' and 'The Circle game'. The recordings are on the website for you to rehearse with. We would love to film you singing these songs so we need to all learn them! We will be adding some songs to the list soon!

Art for leavers: As we have missed getting our class photo taken this year we would love to make a class collage of everyone in Year 6 that spells out **FLEET LEAVERS 2020 LOCKDOWN**.

The grid below shows each child's name with a letter, number or rainbow below them. Please can your child draw this on a piece of paper and child can decorate it in any way they choose. Then take a photo of your child holding it and send it to Lisa

via email at

admin@fleet.camden.sch.uk Please put Year 6 class photo in the subject box.

PSHE: Please ask your adults to help you chose a baby photo that you can photograph and email to me. Please make sure it is one you are happy with other people seeing (e.g. probably not one of you in the bath!)

ONLY DO THIS IF YOU ARE NOT COMING IN TO SCHOOL AT ALL- Then please write on a white piece of paper, in large writing, 'When I grow up I want to be...' then you complete the sentence. We need to make sure we can read the writing! Please see the picture here as an example. This is for your leavers celebration so is really important. Please email this picture to me too.

Let' stay connected year 6. Keep trying hard at home! We are really proud of you all!
